

DII EXHIBIT AT TOPSIDES CONFERENCE A SUCCESS

January 31 – February 2, 2012

Hilton New Orleans Riverside • New Orleans, Louisiana, USA

February 20, 2012 – Dynamic Industries successfully participated in the 2012 Topsides Platforms and Hulls Conference and Exhibition in New Orleans, Louisiana. DII’s exhibit featured new graphics that displayed the broad range of services we provide to the offshore industry.

Although this is only the second year for the Topsides Conference, this year’s exhibit hall floor was sold out, with over 50 different exhibitors, up from 37 exhibitors in 2011. A record attendance of 731 consisting of attendees from 15 countries and 20 states were on hand to tour the exhibits and attend the daily sessions and receptions.

DII’S BOOTH AT TOPSIDES CONFERENCE

DII DELEGATES ANSWER ATTENDEE QUESTIONS

The conference program featured several well-known speakers, with sessions covering technical and strategic information related to Project Review and Lessons Learned, Feasibility and Concept Selection, Topsides Detailed Design, Operational Integration and Challenges and Construction, Transportation and Installation.

The Topsides Conference was a perfect opportunity for DII to demonstrate our capabilities and range of services to those attendees engaged in the design and procurement of offshore topsides.

Key members of DII leadership attended as delegates and fielded questions from other attendees and provided information on our fabrication capabilities, EPC/EPCI projects, brownfield/greenfield projects, hook-up and commissioning work and turnkey maintenance services. Delegates represented Business Development, SH&E and Quality Assurance.

The DII booth featured a looped media presentation highlighting some of DII's major EPC, Brownfield and Fabrication work in recent years. The booth background graphics are consistent with the new DII website, which just launched in January 2012.

DII looks forward to exhibiting at the 2013 Topsides Conference & Exhibition in Galveston, Texas. We hope to see you there!
