Dynamic Construction Services, a Dynamic Industries Inc. Company Is awarded Chevron's Big Foot Offshore Construction Services Contract

New Orleans, Louisiana – July 23, 2013 - Dynamic Energy Services International LLC, a leading fabrication and service provider to the Global Oil, Gas and Energy Industries, announced today that its specialty craft division, *Dynamic Construction Services* has been awarded the **Mechanical Offshore Construction Services Contract for Chevron U.S.A. Inc. Big Foot Floating Production Unit (FPU) for the Walker Ridge Block 29 Development in the Gulf of Mexico.**

Matt Oubre, COO of *Dynamic Construction Services* said, “*We are extremely excited about the confidence that the Big Foot Project Team has placed in Dynamic to bring this world class facility to first oil. Dynamic has worked closely with Chevron for nearly three decades performing hookup, maintenance, large scale brownfield and commissioning contracts in the US Gulf of Mexico and offshore Angola. That experience makes us uniquely qualified to provide the excellence in safety and execution that Chevron has come to expect from Dynamic Construction Services*”.

About Chevron's Big Foot Platform

The Big Foot FPU is an extended tension leg platform (ETLP) consisting of the hull systems, tendon and anchoring systems, risers, major processing systems, export facilities, utilities and living quarters. The Big Foot platform will be located approximately 225 miles (360km) south of New Orleans, Louisiana in water depths of 5,200 feet. The platform has capacities of 75,000 barrels of oil and 25 million cubic feet of natural gas per day.

Dynamic's Scope of Work consists of the onshore Project Management Team (PMT) at the Integration Yard for the development of the Hook Up and Commissioning Work. Following installation of the FPU, Dynamic will deploy its resources offshore to complete the construction and support the Commissioning and Start-Up Operations.

About Dynamic Energy Services International, LLC

Founded in 1985 as an offshore service company, Dynamic Energy Services International LLC (www.dynamicind.com), is a major fabricator and a leading brownfield, hook-up and commissioning contractor in the Gulf of Mexico, West Africa, the Caribbean Basin, and, upon the opening of our new location in second half of 2013, Saudi Arabia.

Headquartered in New Orleans, LA, Dynamic provides fully integrated EPCIM services globally to the upstream and downstream markets.

About Dynamic Construction Services

Dynamic Construction Services is one of the largest offshore construction companies servicing the US GoM with shore bases for the Western, Central and Eastern Gulf in Harvey, LA, New Iberia, LA, and Ingleside TX, respectively. The Company recently expanded into the shale areas providing a full line of site development services in Texas in the Eagle Ford, in W. Virginia and Pennsylvania in the Marcellus Shale and in Ohio in the Utica Shale. *Dynamic Construction Services* also provides a full line of specialty craft services including electrical & instrumentation, fire & safety, scaffolding, staffing and plant services.
