

NEWS RELEASE

LQT Industries, LLC Delivers Offshore Aluminum Accommodations Facility for Alaskan Oil & Gas Facility.

Broussard, Louisiana, USA – July 31, 2014 – *LQT Industries*, a full-service provider of high quality accommodation facilities, design-build construction services, and support services to the oil and gas industry, has built and delivered a 30 bed living quarters facility to be used by an energy company on a platform in Alaska.

The accommodations facility is a two story package consisting of four (4) aluminum modules. The facility includes six (6) staterooms, a galley, a dining room, a laundry area, offices, and a recreation room. The upper modules are designed to be removed and used on other client facilities during installation, start-up, and maintenance periods. The client selected *LQT's* design because the inherent blast rating and ability to interconnect the modules to create hallways and open rooms offered a higher living standard than competing designs.

About LQT Industries, LLC

LQT Industries, LLC, located along the Gulf Coast, designs, manufactures, and refurbishes accommodation facilities and specialty buildings and also rents construction equipment for oilfield, emergency response, and remote workforce applications. By striving to provide the highest quality products and services, *LQT* has become a leader in providing accommodations and equipment for the oil and gas industry worldwide.
