

ACCOMMODATIONS • CONSTRUCTION • REFURBISHMENT • AUXILIARY EQUIPMENT

**LQT Industries, LLC**, located on the U.S. Gulf Coast, designs, manufactures, and refurbishes buildings for applications such as Accommodations, Motor Control Center's (MCC's), E Houses, and many specialty building applications. **LQT** also rents construction equipment for oilfield, emergency response, and remote workforce applications. Our team is comprised of dedicated project managers, engineers, and technical personnel with diverse experience in construction, electrical, mechanical, and structural engineering disciplines.

**LQT** offers the largest and lightest fleet of aluminum buildings to support remote workforce areas and offshore drilling and production operations. By striving to provide the highest quality products and reliable services, **LQT** has become a leader in providing accommodations, specialty buildings, and equipment for the oil and gas industry **worldwide**.

## ACCOMMODATION FACILITIES

**LQT** has one of the largest fleets of stackable accommodation modules and helidecks to support offshore and onshore operations worldwide. We offer a variety of buildings including USCG and ABS rated buildings and non-rated buildings that are designed and constructed in-house using fiberglass, steel, and marine grade aluminum. **LQT** is focused on constantly improving and expanding product lines to maintain the highest standard in **safety, reliability, and versatility**.

### PRODUCT LINES

*Aluminum, Steel, Fiberglass Modular Facilities*

*USCG/ABS Buildings*

*Modular Heliports*

*Blast Resistant Buildings*

*Offshore and Onshore Buildings*

*Land Support – Man Camps*

### LIGHTWEIGHT

LQT's aluminum buildings are 20% to 30% lighter than the equivalent steel design, which makes mobilization and installation safer and easier.

### LOW MAINTENANCE

Unlike steel, Aluminum is resistant to corrosion and does not require the application of protective coatings which have to be constantly maintained and reapplied.

### ECONOMICAL

Aluminum is more cost effective due to limited maintenance and other related costs.

## ALUMINUM ADVANTAGE

Modules are designed to act as stand-alone units with various options for exterior door placement and can interconnect horizontally or vertically up to three (3) levels.

### CONFIGURATION OPTIONS

*Sleepers*

*Offices/Sleepers*

*Galleys/dining halls*

*Recreation & exercise rooms*

*Utility rooms*

*Hospital/sick bay/medic rooms*

*Laundry/change rooms*

### MODULAR HELIDECKS

**LQT** offers modular helidecks that tie into existing accommodation facilities. The helidecks are engineered and constructed in sections to provide cost efficiency and easy mobilization and installation.

## CONSTRUCTION

With combined experience in engineering, procurement, and construction (EPC), **LQT** has the professionals and the facilities to execute tailor-made projects within schedule and budget for both domestic and international markets. From constructing accommodations for subarctic environments to building modules for high risk blast areas, let **LQT** be your partner on your next project to assure your project will be done by a safety conscious organization that measures success through **quality** and **execution**.

## SPECIFICATIONS

A-60  
H-120  
ABS  
USCG  
DNV  
SOLAS  
*Other worldwide certifications.*

## EXPERIENCE

*Aluminum, Steel, and Fiberglass Construction*  
*Electrical & Motor Control Center (MCC) Buildings*  
*Blast and Fire Rated Modules*  
*Accommodations*  
*Specialty Buildings (Customer Specific)*  
*Modular Construction*  
*Single Lift Accommodations*

## REFURBISHMENT

**LQT** respects and appreciates the value of client assets and maintains an experienced team of certified professionals that are available 24 hours a day, 7 days a week, to provide immediate maintenance and refurbishment support. From routine maintenance such as a simple air conditioning repair to major refurbishment projects such as remodeling single lift living quarters, **LQT's** professionals are prepared to be your **asset maintenance solutions**.

### EXPERTISE

Heating, Ventilation, & Air Conditioning (HVAC)

Carpentry & Joiner

Plumbing & Piping

Engineering & Architectural Design Services

Industrial Appliance Repair

Electrical & Instrumentation

Welding & Painting

Insulation & Passive Fire Protection

## AUXILIARY EQUIPMENT RENTALS

**LQT's** auxiliary equipment rental division offers first class equipment for offshore and onshore applications to provide support for daily operations and new construction projects. **Reliable performance** is assured by continuously upgrading product lines with the newest equipment and by engineering and constructing custom equipment for client-specific needs.

### PRODUCT LINES

Air Compressors

Air Volume Tanks

Bulk Air Compressors

Cooling Trailers

Extended-reach Forklifts

Generators

Light Towers

Offshore Cargo & Personnel Baskets

Power Generation Panels

Tuggers

Welding Machines

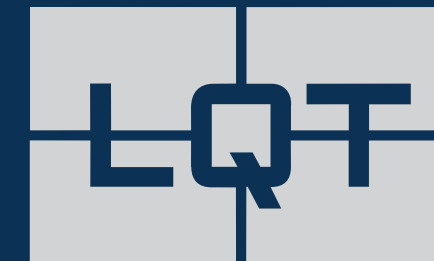

## EMERGENCY RESPONSE

**LQT** provides the equipment and service support that enables you to be prepared whenever a disaster strikes with sturdy accommodation buildings constructed to withstand the forces of nature. **LQT** also provides equipment such as Generators, Water Tanks, Sewer Treatment Plants, and much more. With **LQT's** highly skilled staff, we can ensure that our expertise will reach you when you need it most.

## LAND SUPPORT – MAN CAMPS

From providing complete lodging facilities for Shale operations to providing living quarters for remote areas, **LQT** has the experience and the resources to provide effective solutions.

## SAFETY CULTURE

**LQT** has built an organization that values the **safety** and **health** of our employees and the protection of the **environment** through visible leadership and commitment at every level of the organization. This **Safety, Health, & Environmental (SH&E) Culture** is manifested in every aspect of **LQT** and its operations.

**LQT** believes all incidents are preventable and we work constantly to communicate lessons learned through our **SH&E** Management System Database, safety alerts, safety meetings, and analysis of behavior based safety observations. We continuously improve our **SH&E** performance through visible management participation to sustain our objective of an incident-free and injury-free work environment.
