LQT Industries, LLC Awarded Multiple Contracts Including Blast Buildings for an LNG Facility

Broussard, Louisiana, USA – November 5, 2015 - *LQT Industries*, a full-service provider of high quality accommodation facilities, design-build construction services, and support services to the oil and gas industry, has been awarded multiple construction contracts including the fabrication and outfitting of steel modular buildings for an LNG facility in Southwest Louisiana.

The buildings consist of operator control and deluge buildings that house and protect specialty equipment. Each building will be fire and blast rated to the customer's specifications. The project is scheduled to be completed by the end of the first quarter 2016.

LQT has also been awarded the fabrication and outfitting of an aluminum MCC building for a major oil and gas company. The aluminum MCC will be located on an offshore platform in Trinidad. Also, LQT was awarded contracts from two (2) customers to build specialized equipment for offshore Gulf of Mexico operations.

The fabrication and outfitting will be completed at *LQT's* construction facility in Abbeville, LA, which specializes in designing and fabricating various types of modular structures including MCC buildings, blast rated buildings, and accommodation buildings. LQT is currently expanding its fabrication facility to increase their capabilities in the area of specialized building construction for the energy sector. This is the second expansion in Abbeville, LA since 2014.

About LQT Industries, LLC

LQT Industries, LLC, located along the Gulf Coast, designs, manufactures, and refurbishes buildings for applications such as Accommodations, Motor Control Buildings (MCC's), E-

Houses, and many specialty building applications. *LQT* also rents construction equipment and provides fire and safety services for oilfield, emergency response, and remote workforce applications. By striving to provide the highest quality products and services, *LQT* has become a leader in providing accommodations and equipment for the oil and gas industry worldwide.
