

## **NEWS RELEASE**

### ***LQT* Awarded Project for Construction of Blast Resistant Modules (BRMs)**

**Broussard, Louisiana, USA – December 6, 2016 - *LQT Industries, LLC***, a service provider and construction company to the energy and industrial markets worldwide, has been awarded a project for the construction of eight (8) blast resistant modules (BRMs) for a petrochemical facility.

*LQT*'s scope of work entails design, engineering, and construction of steel modular deluge valve enclosures. The modular enclosures will be designed to meet various blast ratings in a Class I Div I operating environment. The project is scheduled to be completed by the end of the 1<sup>st</sup> quarter 2017.

“*LQT* has a growing reputation in the petrochemical market for high quality buildings,” said Peter Reeves of *LQT Industries*. “We are pleased to work with industry leading EPC firms on complex projects. Our ability to deliver on schedule and on budget makes *LQT* an important partner for the success of these projects.”

The project will be executed at *LQT*'s fabrication facility in Abbeville, Louisiana, which currently has four (4) additional blast resistant modular (BRM) projects underway for the petrochemical industry.

#### ***About LQT Industries, LLC***

*LQT Industries, LLC* designs, manufactures, and refurbishes buildings for applications such as Accommodations, Motor Control Buildings (MCC's), E-Houses, and many specialty building applications. *LQT* also provides fire and safety services, industrial insulation services, and rents construction equipment to the domestic and international onshore and offshore energy markets. By striving to provide the highest quality products and services, *LQT*

has become a leader in providing accommodations and equipment for the energy and industrial markets worldwide.
