

PRESS RELEASE

Dynamic Industries, Inc., has been awarded the fabrication of 38 Pre-Assembly Modules from a new client. This 0070project is the largest capital investment project for this client

New Iberia, Louisiana – August 8, 2018 – Dynamic Industries, Inc., a leading fabrication and service provider to the global oil, gas and energy industries, has been awarded a contract to supply 38 pre-assembly modules, consisting of Inside Battery Limits (IBL) and Outside Battery Limits (OBL) piperacks for a Propylene Oxide (PO) and Tertiary Butyl Alcohol (TBA) plant located in Texas. Once installed, these critical building blocks will help produce 470,000 metric tons of PO and 1 million Metric Tons of TBA.

Fabrication will be performed at Dynamic’s New Iberia facility. The project is scheduled to start in January of 2019 with completion set for December of 2019. The total tonnage of this project for Dynamic will be 7,933 tons with an average module weight of 208 tons each.

Jeff Clement, EVP & COO of **Dynamic Industries, Inc. US Fabrication Division** said, *“This is a great opportunity for Dynamic for the upcoming year. We are particularly excited about this award because it is our first for this client. Dynamic’s 10 plus years in the downstream sector has proven invaluable. We strive to be the best in quality and safety. Our goal as a company is to be the front-runner for modular fabrication. Thanks to the hard work of all involved in this very important project, it shows we are on the right track. This award brings stability to Dynamic’s loyal employees. “*
