# WE CAN MEET YOUR ONSHORE CHALLENGES — WHATEVER THEY ARE

## DIVERSE RANGE OF SERVICES AND PROJECTS

Dynamic offers a broad variety of complementary services provided either as standalone or bundled into a turnkey offering. We can provide onsite stick-build or modular construction solutions. Whether transported by truck or barge, modules can be sized and fabricated to optimize transportation, installation

and site hookup. Regardless of project size or location, we have the experienced field crews to install the equipment and hookup the systems required for your project.

We provide these construction and maintenance services to the upstream, midstream, downstream, industrial and power industries.

## OUR CAPABILITIES INCLUDE:

- EPC prime contractor
- Structural fabrication
- Pipe spool fabrication
- Fabrication of meter skids, manifold skids, launchers/receivers, etc.
- Equipment setting
- Hydro testing of process piping and equipment
- Mechanical field construction
- Civil works
- Scaffolding
- Blasting, coating and insulation – shop and field
- Commissioning
- Equipment alteration and modification (R-stamp)
- Facility maintenance and restoration
- Demolition

## OUR PROJECTS HAVE INCLUDED:

- Oil and gas production facilities
- Gathering systems
- Gas treatment plants
- Gas separation facilities
- Underground gas storage facilities
- Pump and compressor stations
- Water treatment, storage and injection facilities
- Power generation plants
- Refineries
- Chemical plants
- LNG plants
- Crude oil/product storage and loading facilities
