DYNAMIC CONSTRUCTION SERVICES (DCS) is a Full-Service Construction Division of Dynamic Energy Services International providing expansive full service fabrication, construction, maintenance, and specialty craft services to both offshore and onshore companies worldwide. Our experience and resources make DCS the preferred choice for upstream, midstream, and downstream sectors of the energy, chemical, industrial, and pipeline industries.

**SH&E**

Where everyone arrives home safely.

DCS is known for being one of the safest and most environmentally friendly companies in the industry. This is, in large part, due to our SH&E Management System.

At DCS, we’ve built an organization that values the safety and health of our employees and the protection of the environment through visible leadership and commitment at every level of the organization, which is manifested in everything that we do. We call this our Safety, Health & Environmental (SH&E) culture.

In 1998, Dynamic was purchased by a private investor with the aspirations to expand Dynamic into a full-service company that shared the same core values of safety and quality as its customers.

In 2007, a leading private equity firm, acquired the majority of our parent company, Dynamic Energy Services International. Through strategic corporate acquisitions, capital investments in infrastructure, expansion and accumulation of physical facilities, as well as assembling a strong and experienced management team, DCS has emerged as a construction services leader in the energy industry.

Markets:
- Upstream
- Onshore
- Offshore
- Drilling
- Midstream
- Downstream
- Industrial

Services:
- New Construction & Maintenance
- Industrial Services
- Fabrication
- Coatings
- Scaffolding
- Skilled Labor Staffing Services

**HOW WE GOT HERE**

Dynamic was founded in 1985 as an offshore service company, specializing in light structural fabrication, piping fabrication, associated installation, commissioning, and offshore maintenance services. From 1985 to 1998, Dynamic grew to become the premier hook-up and commissioning contractor in the Gulf of Mexico.

In 1998, Dynamic was purchased by a private investor with the aspirations to expand Dynamic into a full-service company that shared the same core values of safety and quality as its customers.

In 2007, a leading private equity firm, acquired the majority of our parent company, Dynamic Energy Services International. Through strategic corporate acquisitions, capital investments in infrastructure, expansion and accumulation of physical facilities, as well as assembling a strong and experienced management team, DCS has emerged as a construction services leader in the energy industry.

As a company, we are continually striving to improve our performance by measuring and monitoring our SH&E process. SH&E is considered a core value within our organization, with our motto being “Everyone Arrives Home Safely.” DCS has developed a world-class SH&E Management System that is connected in real time to our workforce through our SH&E Management System database. We believe all incidents are preventable, and we constantly work to communicate lessons learned through our SH&E Management System Database, safety alerts, SH&E meetings, safety moments in internal meetings, and analysis of behavioral-based safety observation.

At DCS, we have a commitment to continuously improve our SH&E performance through our visible management participation to sustain our corporate culture and belief in an incident-free and injury-free work environment.
OFFSHORE CONSTRUCTION

The DCS Offshore Fabrication and Services Division is a cornerstone of the Dynamic brand – and we look forward to providing the same level of service and expertise our customers have come to expect.

At DCS, we have earned a reputation for early partnering with clients to establish accurate schedules and budgets. Our strategic locations along the US Gulf Coast provide mission-support bases for pipe and structural fabrications. We establish project-specific organizational charts from planning, procurement, and execution to job tracking - ensuring every project is executed safely, on time and on budget.

ONSHORE CONSTRUCTION

DCS provides a variety of onshore construction services from on-site brownfield maintenance to full greenfield facility development in the upstream, midstream and downstream industries.

With over 30 years of experience and a direct hire workforce of skilled and qualified tradesmen, DCS has developed unique and successful construction and fabrication processes. Today, we’re bringing those same skills and expertise to the shale markets. Combined with our vast manpower and resources, we’re able to provide quality services to execute shale projects with our DCS brand of innovation.

Offshore & Onshore Services

- Deck, Jacket, Module Fabrication & Assembly
- R-Stamp Vessel Repairs
- Offshore Construction Crews
- Facility Maintenance & Upgrades
- Decommissioning & Removal Support for Platforms and Pipelines
- New Facility Hook-Up & Commissioning Support
- Asset Integrity Support

FIELD CONSTRUCTION

STAFFING (IMS)

SCAFFOLDING

COATINGS

FABRICATION

INDUSTRIAL SERVICES
STAFFING SERVICES
[Innovative Manpower Solutions]

Innovative Manpower Solutions (IMS) provides the full complement of skilled craftsmen, including project management teams and administrative support personnel to welders, fitters, and roustabouts. The IMS workforce plays a critical role in labor constrained environments both onshore and offshore servicing the upstream, midstream, downstream, and industrial markets. IMS’ mission-ready crews not only support the manning requirements of DCS construction projects, but also provide contract labor directly to the end client for extended durations or to supplement temporary spikes in manpower needs.

FIELD CONSTRUCTION

DCS has the capabilities and the personnel to turn your concept into a revenue producing asset. Our comprehensive array of field services includes installation and connection of fabricated units and commissioning and ongoing facility maintenance. Here, we provide experienced crews for the construction of major compressor stations, pump stations, meter stations, oil and gas facilities, LNG facilities, tank farms, liquid handling facilities, crude & bulk terminals and electric power plants – with all services offered domestically and worldwide.

- Pipe spool fabrication
- Structural fabrication
- Installation of meter stations and equipment
- Upgrade of compressor and pump stations
- Installation of major grassroots compressors and pump stations
- Installation of storage facilities
- LNG Facility Construction
- Pipeline metering/piping module fabrication
- Gas compression skid fabrication
- Launcher/Receiver fabrication
- Construction, hook-up and maintenance services
- Hydro testing of process piping and equipment
- Scaffolding installation, equipment rental and service
- Commissioning and maintaining of process facilities
- Sandblasting and coatings
- Well Pads
- Central Processing Facilities
- Waste water facilities
DCS provides safe, cost-effective work access solutions...

for Capital Projects, Maintenance, Turnarounds and Outages. From Offshore Platforms to Industrial Facilities and any location in-between, the DCS Scaffolding Division delivers safe, cost-effective solutions to the Oil and Gas, Petrochemical, Marine, Power Generation, Industrial and Commercial industries:

Turnkey Solutions
Labor Services
Rental & Sales
Engineering
Project Management
Inventory Management
Emergency Response

SAFEDECK - DCS is a provider of the safest solution to specialized hanging and cantilevered scaffolding.

SafeDeck | Ring Lock System | Tube & Clamp

Industrial Scaffolding Products. DCS is committed to providing customers with state-of-the-art products and techniques to meet project requirements. We continuously seek new and innovative ways to provide safe, cost-effective work access solutions, even for the most challenging environments.
Dynamic’s Coating Services provides our clients long-term “coating maintenance” programs for their facilities. After a detailed coating survey and assessment, we create effective and economical solutions and maintenance schedules that meet your desired demands and budgets. Our complete range of services and surface preparation methodologies include:

- **Conventional Sandblasting and Painting**
- **UHP (Ultra-High Pressure water blasting)**
- **Lead Remediation**
- **Pipeline Coatings**
- **Petrochemical Coatings**
- **Shipyards Coatings**
- **Offshore Maintenance Coatings**
- **Fixed & Floating Production Facilities**
- **Drilling Rigs**
- **Living Quarters**
- **Alternative Blasting/Media**
  - **Cleaner Blast®**
  - **Sponge**
  - **Aluminum Oxide**
  - **Garnett**
  - **Slurry**
  - **Dry Ice**
- **Specialty Services**
  - **Fire protection coatings**
  - **CUI (Corrosion Under Insulation) Repairs**

The **DCS** Industrial Services Division offers superior fabrication and maintenance.

**Where we work:**
- **Refineries**
- **Petrochemical facilities**
- **Midstream facilities**
- **Industrial facilities**
- **Terminals**
- **Power Plants**
- **Water treatment facilities**

**What do we do:**
- **Civil Construction**
- **Mechanical**
- **Fabrication/Installation of piping**
- **Fabrication/Installation of structural**
- **Equipment setting**
- **Rotating equipment**
- **Scaffolding**
- **Painting/Insulation**
- **Boiler installation**
- **Heat trace installation**
- **Flare Installation**
- **Turnaround Support**
- **Grounds-keeping**

**Industrial Services**

Our Industrial Services Division focuses on construction and maintenance services for all major industrial plant facilities and refineries.

At DCS, we deliver expert attention to detail, ensuring all standards and qualifications are met. The **DCS** workforce is trained to work in difficult and challenging conditions — specializing in maintenance, capital projects, and turnarounds for the downstream marketplace. **DCS** takes pride in the longevity of its client relationships - once we’re invited to join the team, we remain partners with our clients at their facilities for decades.
